## Loan Repayment Insurance

You can expect the best  
in protection from  
Daimler Truck Financial.

**Daimler Truck Financial**

Investing in your success.

## Daimler Truck Financial starts by financing your asset, but continues to also protect your family and dependant loved ones.

The Canadian operation of Daimler Truck Financial was founded in 1984. Today, as the captive finance source for Daimler Trucks North America with 25+ years in the business, we continue to make it our priority to treat every customer as an individual with specific and unique needs and we cater to your needs by providing a wide array of products and services.

Our goal is to be your first choice provider of financial services and we have made it our mission to be the most knowledgeable, customer-focused company with a responsive, competitive, solution-focused relationship with you, our customer. Because we measure our success by your success.

Your recent equipment purchase is a great financial commitment, one that is necessary for your livelihood and your family's financial well being.

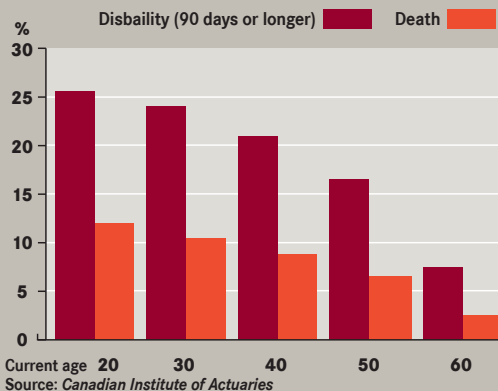

Sometimes, however, life can put unexpected challenges in your path.

What would happen if one of these roadblocks suddenly prevented you from getting behind the wheel and earning a living? The financial strain could put a lot of pressure on your business and family, drain your resources and damage your credit rating.

Daimler Truck Financial makes available a full range of insurance coverage options to protect you, your family and business during such times of hardship.

Our loan repayment insurance (Platinum Protection Plan) will take care of the loan payments, so that you and/or your family can keep your equipment and continue to earn income from it – if not by operating it, then by renting it out and creating another type of income stream.

### Probability of becoming disabled or dying before age 65

You can rest assured that the insurance coverage you choose will reduce the financial impact on your loved ones if anything should happen to you:

#### Life Insurance Coverage

If you were to suffer a fatal injury or illness, life coverage will pay off the insured portion of your loan. This means that your family can keep the equipment, continue the income stream and not have the strain of heavy monthly loan payments.

#### Disability Coverage

If you become totally disabled and are unable to work, disability coverage will take care of your insured monthly loan payments, allowing you to focus on getting back on the road.

You can choose the type of disability plan, the length of the waiting period and the maximum number of benefit payments that works best for you and your budget.

If you become totally disabled due to illness or as a result of an injury, **accident & sickness** coverage will take care of your loan payments while disabled.

And for those with existing health conditions, the **accidental disability** option will take care of the loan payments if the total disability is solely caused by an accident.

**Platinum Protection Plan** is an affordable and convenient solution to ensure your loan payments are made when you are not in the driver's seat.
